

DISCLOSURE OF INVENTION

A) Particulars of inventor(s)

S. No.	Name of the Inventor(s)	Organization / department and designation (if applicable)	Nationality	Email and Phone number
1	Ms. Sujata Negi Thakur	Assistant Professor, Graphic Era Hill University, Haldwani Computer Science and Engineering Department	Indian	sujatanegi@gehu.ac.in 9411791737
2	Mr. Manoj Kumar Singh	Assistant Professor, Graphic Era Hill University, Bhimtal School of Computing	Indian	mthakur@gehu.ac.in 8077680556
3	Ms. Kanchan Dumka	Graphic Era Hill University, Haldwani Computer Science and Engineering Department	Indian	kanchandumka@gehu.ac.in 7055122233
4	Ms. Richa Pandey	Assistant Professor, Graphic Era Hill University, Haldwani Computer Science and Engineering Department	Indian	richapandey@gehu.ac.in 7252027349

B) Particulars of invention

a) Title of the invention:

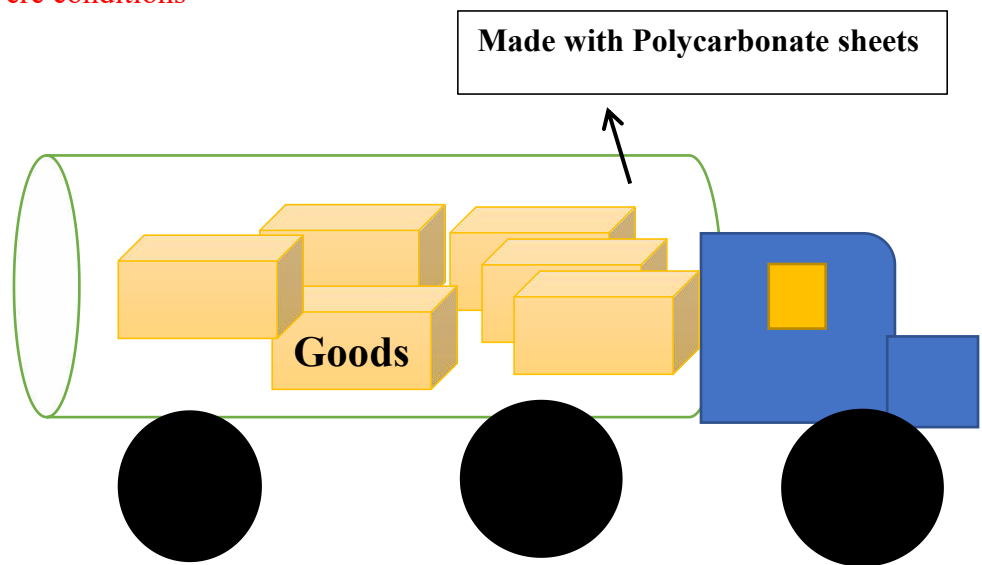

Replacement of Iron sheets by Polycarbonate sheets in Trucks

b) General purpose of the invention:

To reduce the effort expended by police and army personnel in vehicle inspections.

c) Flowchart, process, method, algorithm and diagram of the invention

- Transparent
- Cost Effective
- Durable in severe conditions

- d) Abstract : Smuggling and terrorist attacks pose challenges to society on a daily basis. The concept here is to replace the iron sheets used in vehicles with Polycarbonate sheets, which are transparent, practically indestructible, resistant to severe temperatures, and cost-effective. Because the items held within the truck can be plainly observed, we can lessen the efforts made by army men and police to check every truck on a regular basis.
