

## MOVE FAST AND BREAK THINGS

## INNOVATE

Taking steps and introducing a new form of learning .

## LAUNCH

Taking care of the current situation the university is introducing a more sophisticated way of distance learning.

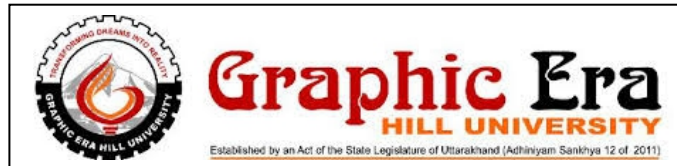

## STAY FOCUSED

The only thing we demand from students is their utmost sincerity towards their own life.

## DON'T COMPROMISE

Covid scenario isn't something very new Its been more than one and half year since we're fighting against this virus.

Seeing someone without mask and staying silent in this time would be the biggest guilt you'll ever feel , your one carelessness might cost lives of thousands.

# INNOVATE

## Your Success Is Our Priority

### OUR MISSION

- To inspire and empower UG students to brainstorm and create health technology innovation for sustainable implementation in developing regions around the world
- To engage interdisciplinary strengths of university for UG education
- To channel student innovations to global communities

- To develop tomorrow's leaders who are visionary, creative, socially responsible and collaborative

The Community Standards encourage students to engage in responsible conduct that reflects positively upon the University community. The University attempts to establish a climate that encourages responsibility by students for their individual and collective actions.
