Subject : regarding revising the fees to be paid by students upcoming in third semester

Respected Sir,

We are students enrolled in BCA. As per the current situation out there , we don't think that this is the ideal time when university is asking us to deposit fees earlier than we are supposed to. This isn't that , most of us are going through critical times in the family's economy. And the fees seem to be too massive in amount .

As all of us are going to online classes , we barely had exploited any of the university's infrastructure, so we suppose you should revise the fact that students should only pay for the services they are provided with.

We have enclosed the list of students demanding the financial aid and delay in the submission time. We hope you'll help us out for the better.
Thank you.
